

BIG MESS? NO PROBLEM

Don't let fear of spills and stains get in the way of having fun this Holiday Season

Having the kids off school and underfoot can be a lot to handle during the holiday season — keeping them entertained while keeping messes at bay can be even more difficult. As a mother of four, HGTV's Sarah Baeumler says don't let fear of messes stand in the way of your family having fun! Instead, choose to spend your holiday season in-the-moment, enjoying quality time with your family and get messy with the following activities:

Arts & Crafts

Fill a drawer full of markers, colouring books, finger paints and paper that your children and young guests can use on special occasions. When company arrives, direct the kids to the drawer and encourage them to get creative! Being creative and getting dirty go hand-in-hand but forget the stress and let **OxiClean™ White Revive™ Laundry Stain Remover** deal with the mess by keeping all of your whites looking crisp and bright.

Cookie Decorating

Cookie decorating is a great way to get the kids involved in holiday baking. Set up a decorating station with different colored icing, candies and sprinkles and have the kids make customized holiday cookies! Have aprons or smocks available for your little chefs to protect them against spills and stains. For those unexpected messes like sticky fingerprints and spills on upholstery, carpets and floors, mix **OxiClean™ Versatile Stain Remover** with warm water for a quick and effective clean-up solution.

Make Hot Chocolate with Homemade Marshmallows

Seasonal treats like hot chocolate with marshmallows are a great way to preoccupy the kids, but can lead to sticky fingers, cups and spoons. To get rid of sticky finger prints on your dishes the first time, use **OxiClean™ Extreme Power Crystals™ Dishwasher Detergent** and **Triple Action Dishwasher Booster**. It will eliminate food particles, spots and streaks, and ensure your dishes sparkling clean — no prewashing or pre-rinsing necessary!

Get Outside

Winter hosting doesn't mean the kids need to be stuck indoors — bundle them up and have them get some fresh air! If you're expecting guests, encourage them to bring warm clothes for their children or have extra sets available just in case they forget. To tackle outdoor messes on clothes and remove odour from wet mittens and scarves, use new **OxiClean™ HD™ Laundry Detergent** for a high definition clean. It deep cleans and removes tough dried-on stains while keeping colours bright and whites radiant.

Sarah Baeumler

Sarah Baeumler is an inspiration to busy moms and go-getters everywhere! As a proud mom of four, supportive wife and co-host of her husband's HGTV show, House of Bryan, she's found a way to balance her hectic schedule and still pursue her passions — one of which being home entertaining.

Entertaining friends and relatives is so integral to Sarah's life that when she and her husband worked together to build a custom home for their family, ample entertaining space for welcoming guests was a major deciding factor in the design — leading them to opt for comfort and functionality which, according to Sarah, are essentials for hosting great get-togethers.

Her attention to detail, inviting living space and knack for design have made her home a gathering hub for friends and relatives looking for great company and memorable experiences.

Sarah's reputation as the 'hostess with the mostest' is proof that anyone can find the time to entertain at home while juggling a family and career. With a few simple tips and hacks for entertaining the kids and simplifying her party prep and clean-up, Sarah has much more time to enjoy good food and plenty of laughs with her loved ones.

Sarah Baeumler is a paid partner of OxiClean
